SEC. 2. The Maysville Bridge Company, its successors and assigns, is authorized to construct, maintain, and operate such bridge and the necessary approaches thereto as a railroad bridge for the passage of railway trains or street cars, or both, or as a highway bridge for the passage of pedestrians, animals, and vehicles, adapted to travel on public highways, or as a combined railroad and highway bridge for all such purposes; and there is hereby conferred upon Maysville Bridge Company, its successors and assigns, all such rights and powers to enter upon lands and to acquire, condemn, occupy, possess, and use real estate and other property needed for the location, construction, operation, and maintenance of such bridge and its approaches as are possessed by railroad corporations for railroad purposes or by bridge corporations for bridge purposes in the State in which such real estate or other property is situated, upon making just compensation therefor, to be ascertained and paid according to the laws of such State, and the proceedings therefor shall be the same as in the condemnation or expropriation of property for public purposes in such State.

SEC. 3. After the completion of such bridge, as determined by the Secretary of War, if the same is constructed as a highway bridge only, either the State of Kentucky, the State of Ohio, any public agency or political subdivision of either of such States, within or adjoining which any part of such bridge is located, or any two or more of them jointly, may at any time acquire and take over all right, title, and interest in such bridge and its approaches, and any interest in real property necessary therefor, by purchase or by condemnation or expropriation, in accordance with the laws of either of such States governing the acquisition of private property for public purposes by condemnation or expropriation. If at any time after the expiration of twenty years after the completion of such bridge the same is acquired by condemnation or expropriation, the amount of damages or compensation to be allowed shall not include good will, going value, or prospective revenues or profits, but shall be limited to the sum of (1) the actual cost of constructing such bridge and its approaches, less a reasonable deduction for actual depreciation in value, (2) the actual cost of acquiring such interests in real property, (3) actual financing and promotion costs, not to exceed 10 per centum of the sum of the cost of constructing the bridge and its approaches and acquiring such interest in real property, and (4) actual expenditures for necessary improvements.

SEC. 4. If such bridge shall at any time be taken over or acquired by the States or public agencies or political subdivisions thereof, or by either of them, as provided in section 3 of this Act, and if tolls are thereafter charged for the use thereof, the rates of toll shall be so adjusted as to provide a fund sufficient to pay for the reason-

able cost of maintaining, repairing, and operating the bridge and its approaches under economical management, and to provide a sinking fund sufficient to amortize the amount paid therefor, including reasonable interest and financing cost, as soon as possible under reasonable charges, but within a period of not to exceed twenty years from the date of acquiring the same. After a sinking fund sufficient for such amortization shall have been so provided, such bridge shall thereafter be maintained and operated free of tolls, or the rates of toll shall thereafter be so adjusted as to provide a fund of not to exceed the amount necessary for the proper maintenance, repair, and operation of the bridge and its approaches under economical management. An accurate record of the amount paid for acquiring the bridge and its approaches, the actual expenditures for maintaining, repairing, and operating the same, and of the daily tolls collected shall be kept and shall be available for the information of all persons interested.

Maintenance as free bridge, etc., after amortizing costs.

Record of expenditures and receipts.

SEC. 5. If such bridge is constructed as a combined railroad bridge for the passage of railway trains or street cars, and a highway bridge for the passage of pedestrians, animals, and vehicles, then the right of purchase and condemnation conferred by this act shall apply to a right of way thereover for the passage without cost of persons, animals, and vehicles adapted to travel on public highways; and if the right of purchase or condemnation shall be exercised as to such right of way over the bridge, then the measure of damages or compensation to be allowed or paid for such right of way shall be a sum equal to the difference between the actual fair cash value of such bridge determined in accordance with the provisions of section 3 of this Act, and what its actual fair cash value so determined would have been if such bridge had been constructed as a railroad bridge only. If the right of purchase or condemnation conferred by this Act shall be exercised as to the right of way over such bridge, then that part of the bridge which shall be purchased or condemned and shall be thereafter actually used for the passage of pedestrians, animals, or vehicles, shall be maintained, operated, and kept in repair by the purchaser thereof.

Application of acquisition of right of way for combined bridge.

Maintenance, etc., of highway bridge.

SEC. 6. The Maysville Bridge Company, its successors and assigns, shall within ninety days after the completion of such bridge file with the Secretary of War, and the highway departments of the States of Kentucky and Ohio, a sworn itemized statement showing the actual original cost of constructing the bridge and its approaches, the actual cost of acquiring any interest in real property necessary therefor, and the actual financing and promotion costs. The Secretary of War may, and upon request of the highway department of either of such States shall, at any time within three years after the completion of such bridge, investigate such costs and determine the accuracy and the reasonableness of the costs alleged in the statement of costs so filed, and shall make a finding of the actual and reasonable costs of constructing, financing, and promoting such bridge; for the purpose of such investigation the said Maysville Bridge Company, its successors and assigns, shall make available all of its records in connection with the construction, financing, and promotion thereof. The findings of the Secretary of War as to the reasonable costs of the construction, financing, and promotion of the bridge shall be conclusive for the purposes mentioned in section 3 of this Act, subject only to review in a court of equity for fraud or gross mistake.
